4. MEETING ACTIVITIES / NEW BUSINESS

<i>Goal/Work Plan Objective #:</i>	<i>Accomplishments</i>
“Hot Topic” training on PSRA Process (WP Item 1.2)	The Committee received training on the Priority Setting and Resource Allocation (PSRA) Process by Carla Taylor-Bennett, Part A Co-Chair of the Joint Priorities Committee. The objective is to educate members on the PSRA process in order to make an informed decision when ranking service categories. The ultimate goal is ensure committee members are knowledgeable when relaying Ryan White information to other consumers and the community at large. The presentation included: PSRA process; Planning Council and Committees roles; data utilization; processes to estimate anticipated need; Grant documentation; persons living with HIV/AIDS (PLWHA) involvement; priority ranking (<i>copy on file</i>). A question and answer session followed the presentation; Committee Members discussed how the Affordable Care Act (ACA) is anticipated to affect the PSRA Process.
Rank PSRA Service Categories (WP Item 1.2)	The Committee ranked the PSRA service categories for both core and support services. Staff explained Joint Client/Community Relations (JCCR) ranking differences between December 2012 and May 2013. Members observed historical rankings from FY12/13 and FY13/14, and reviewed how consumers ranked services in the 2012 Client Survey. Members noted the differences in ranking and discussed what factors may have contributed to these differences: i.e., absence of JCCR Members on the day of ranking who are community members living with the virus; personal stance at time of ranking. It was suggested that there may have been an ADAP waitlist when the consumer ranking was done contributing to the difference in ranking for ADAP between consumers and JCCR. It was noted that historically there are no major changes in ranking between service categories when comparing fiscal years.
Choose “Hot Topics” (W.P. 1.2)	Members chose additional “Hot Topics” for future Committee meetings: Surveillance data education session by Department of Health and ACA update as we approach 2014. Topics discussed for next meeting include: the scope of HIV/AIDS epidemic (the extent of the epidemic in relations to affected populations), the dental program for adults and children and Dr. Ana Puga: the future of HIV/AIDS (recent story involving infant).

Additional Items

- July meeting cancelled-quorum will not be achieved. The work plan will be adjusted accordingly.

5. GRANTEE REPORTS

a) **Part A**

The Grantee discussed collaboration with the Ryan White Part A Office at the Resource Fair in October, 2013. The Resource Fair to be the Fall Community Event for JCCR. The Grantee will provide details closer to the event.

b) Part B

The written Part B Grantee report was provided detailing expenditures up to March 2013.

Non-Medical Case Management conducted 997 eligibility interviews in March. Medication co-payment served 291 clients of which 20 were new to the program. There were 277 clients served in March for Medication Co-Payment and 14 clients served for Mail Orders. Cost avoidance for Medication Co-Payment program for March is \$47,415.74. Total cost savings April – March 2013 is approximately \$200,000. Home Delivered Meals served 2 clients. Medical Transportation for March 2013: A total of 179 (10 ride) and 311 (31 day) passes distributed.

It was noted that Part B is working on scorecards; scorecards to be sent electronically when complete. There was a discussion on enrollment in ADAP Premium Plus and the process to use the co-pay assistance card at CVS.

c) PUBLIC COMMENT

There was no Public Comment.

d) AGENDA ITEMS / TASKS FOR NEXT MEETING: Date: June 4, 2013 Venue: BRHPC

3. STANDARD COMMITTEE ITEMS

a. TESTIMONIALS

- A Member announced that the Minister from Lighthouse Church of God in Christ has a son who has been battling kidney disease; He recently received a kidney transplant and is doing well.

4. MEETING ACTIVITIES / NEW BUSINESS

Goal/Work Plan Objective #:	Accomplishments
“Hot Topic” training on PSRA Process (WP Item 1.2)	The Committee completed a brief evaluation survey on the Hot Topic training that they received at the May meeting on the Priority Setting and Resource Allocation (PSRA) Process. This evaluation was developed to ensure that the JCCR training sessions are as effective and meaningful as possible. It also assessed what members learned from the training session. Members received training on the scope of Ryan White Part A and B services by Kim Strong and Ann Mercer. The Part A presentation covered the following topics: The structure of the Part A Grantee office; Grantee’s role/responsibility; Uses of Part A Service Funds; Overview of Core and Support Services; The structure of the Part A HIV Health Services Planning Council’s Committees and QI Networks. The Part B presentation detailed the following: Part B Funded Programs (Medication Co-Payment, Home Delivered Meals, Medical Transportation, and Non-Medical Case Management); Core Eligibility Requirements; Other Funded Part B Programs (ADAP and AICP); Contact Information for the Part B Program.
Social Media Strategy (WP Item 1.1)	The Committee reviewed a handout of the proposed Social Media/Strategy Communication Plan (<i>copy on file</i>). The Committee was asked to review the current Social Media/Strategy Communication Plan and determine the efficacy to increase community involvement. This handout included various ways to reach consumers in order for them to attend JCCR’s community events (letters, posters, press releases, PSAs, and provider websites). It was suggested to not reinvent the wheel rather to build on strategies already in place such as using the internet. Members discussed having a Facebook account as well as getting more peers involved in order to attract individuals to the events. It was also suggested that case managers get involved by actively informing clients of upcoming community events. There was a discussion on ways to engage the community and bring the community to JCCR events; it was noted that the only communication strategy yet to be tried is the internet. Staff to research other efforts done at other EMAs for ideas moving forward.
Plan for the next Community Event (W.P. 2.2, 3.2)	The Committee commenced the discussion regarding their 3rd community event. Members focused on the following venues: Shadowood, MODCO, and MDEI. The Committee reviewed information regarding holding an event at Shadowood, which was requested at a previous meeting. Members concluded that the topic should be on the Affordable Care Act (ACA) or Health Care Reform (HCR). Members agreed that one of their upcoming Hot Topic presentations should be on the ACA or HCR in order to become more knowledgeable on the issue before holding the community event. There was a discussion on JCCR involvement at the Part A Resource Fair in October; Members to help recruit for the event.

5. GRANTEE REPORTS

a) Part A

The Grantee announced the upcoming HRSA site visit scheduled for June 17-20, 2013; Grantee’s office is preparing for the visit. Members were invited to join a Community Forum as a part of the HRSA site visit, held on June 20, 2013 from 9:00 a.m.-11:30 a.m.; location TBD. The Committee was informed that the quarterly Case Management Training just concluded; the training included a question and answer session with the Part A physicians to increase collaboration.

b) Part B

The written Part B Grantee report was provided detailing expenditures up to April 2013.

Non-Medical Case Management conducted 972 eligibility interviews in April. Medication co-payment served 253 clients of which 17 were new to the program. There were 245 clients served in April for Medication Co-Payment and 8 clients served for Mail Orders.

Medical Transportation for April 2013: A total of 323 (10 ride) and 225 (31 day) passes distributed.

The Committee reviewed the Part B scorecards for the following service categories: Non-Medical Case Management; Medical Transportation; Part B Medication Co-Payment/AICP program; Home Delivered Meals. Information included allocations, expenditures, and utilization data for each service category

c) PUBLIC COMMENT

EMA Comparison of Social Media Strategies

San Francisco	Baltimore	Philadelphia
<i>San Francisco Department of Public Health: Prevention for Positives</i> Targets prevention to individuals living with HIV to help them break the chain of HIV transmissions through media efforts, support groups, social events, community forums, provider training and outreach.	<i>Baltimore City Commission on HIV/AIDS Prevention and Treatment: NHAS Recommendations</i> “Outreach and engagement through traditional media (radio, television and print) and networked media (such as online health sites, search providers, social media and mobile applications) must be increased to educate and engage the public about how HIV is transmitted and to reduce misperceptions about HIV transmission” (ONAP 2010b:20).	<i>Office of HIV Planning: Philadelphia Positive Committee</i> Strategically placed billboards publicizing HIV testing and online video about the Myths of HIV that is intended to counter common community beliefs about HIV transmission and treatment.
<i>Event: HIV Stops With Me</i> Social marketing campaign that aims to prevent the spread of HIV while also reducing the stigma associated with the disease. Utilizes the campaign website, newspaper ads, postcards, and a television commercial currently aired during prime time and available online.	<i>Event: City Uprising HIV Outreach Day</i> Event to increase awareness and access to care in Baltimore City. Utilized Facebook pages with commissioners posting statuses about the event, Youtube, print media and online articles, the website: myblacknetworks.com, etc	<i>Event: Do One Thing Campaign</i> Outside of using Twitter and Facebook for their HIV testing outreach, their Facebook page has become a way to engage and energize their volunteers. Volunteers are very engaged on the page and they happily share pictures of HIV testing and other community events. The Facebook page showcases their work, demystifying and hopefully reducing stigma around HIV testing.

Healthcare Reform Implementation: Moving Forward and Managing Change

The Health Care Law and You

health.gov

What does Reform really do?

- People with very low income will be eligible for Medicaid (<133% of Poverty level)
- People with some income will be eligible for Insurance Exchanges (a bare bones, no frills kind of insurance coverage)
- People with Private Insurance will get more protections and probably better services from their existing plans (no more pre existing condition exclusions)

The Problem

- Insurance companies could take advantage of you and turn away the 129 million Americans with pre-existing conditions.
- Premiums had more than doubled over the last decade, while insurance company profits were soaring.
- Tens of millions were underinsured, and many who had coverage were afraid of losing it.
- And 50 million Americans had no insurance at all.

What the Law Means for You: 4 Things to Know

- Ends the worst insurance company abuses
- Makes health insurance more affordable
- Strengthens Medicare
- Provides better options for coverage

The Law Stops Insurance Companies from Taking Advantage of You

TODAY, it is illegal for insurance companies to:

- Deny coverage to children because of a pre-existing condition like asthma or diabetes.
- Put a lifetime cap on how much care they will pay for if you get sick.
- Cancel your coverage when you get sick by finding a mistake on your paperwork.
- And more...

The Law Makes Health Insurance More Affordable

In many cases, you can get preventive services for free:

- ✓ ☐ Cancer screenings such as mammograms & colonoscopies
- ✓ ☐ Vaccinations such as flu, mumps & measles
- ✓ ☐ Blood pressure screening
- ✓ ☐ Cholesterol screening
- ✓ ☐ Tobacco cessation counseling and interventions
- ✓ ☐ Birth control
- ✓ ☐ Depression screening
- ✓ ☐ And more...

Visit www.healthcare.gov/prevention for a full list.

The Law Makes Health Insurance More Affordable

BEFORE, insurance companies spent as much as 40 cents of every premium dollar on overhead, marketing, and CEO salaries.

TODAY, the new 80/20 rule says insurance companies must spend at least 80 cents of your premium dollar on your health care or improvements to care.

If they don't, they must repay the money.

The Law Provides Better Options for Getting Coverage

Starting in 2014:

- Discriminating against people with pre-existing conditions or because they are women will be illegal.
- There will be new State-based marketplaces where you'll have a choice of private plans.
- Tax credits will make buying insurance more affordable.

Ryan White Core Services vs. EHB

Ryan White Core Services

- ✓ **Ambulatory and outpatient care**
- ✓ **AIDS pharmaceutical assistance**
- ✓ **Mental health services**
- ✓ **Substance abuse outpatient care**
- **Home health care**
- **Medical nutrition therapy**
- **Hospice services**
- **Home and community-based health services**
- **Medical case management, including treatment adherence services**
- Oral health care (not standard)

ACA “Essential Health Benefits”*

- Ambulatory patient services
- Emergency services
- Hospitalization
- Maternity and newborn care
- Mental health and substance use disorder services, including behavioral health treatment
- Prescription drugs
- Rehabilitative and habilitative services and devices
- Laboratory services
- Preventive and wellness services and chronic disease management, and
- Pediatric services, including oral and vision care

Moving Forward: Planning for Role of Ryan White Program Services

Ryan White will not be going away anytime soon, but will look completely different for most areas:

ADAP COVERAGE TO INCLUDE:

INSURANCE PREMIUM SUPPORT

MEDICATION CO PAYS

“STATE EXCHANGE & PRIVATE INSURANCE” DEDUCTIBLES

PHARMACY SERVICES (PROBABLY IN A VERY LIMITED CAPACITY)

PART A & B (AND MAYBE C & D)

DENTAL SERVICES

CASE MANAGEMENT (OF SOME TYPE)

PEER NAVIGATION / ELIGIBILITY / ENROLLMENT STAFF

EPISODIC CARE

COVERAGE FOR UNDOCUMENTED (AT LEAST FOR NOW)

“LINKAGE TO CARE CATEGORIES” SUCH AS TRANSPORTATION, HEALTH LITERACY, FOOD, DAYCARE ETC....) NEED TO REBRAND FROM SUPPORTIVE DEFINITION

Ongoing State Implementation Issues

- Outreach and enrollment programs
 - Patient Navigator program design
 - Eligibility criteria for state contracts must include those with disease specific expertise
 - Training must include range of health and social services programs (e.g. Ryan White Program)
 - Program should utilize subcontracts to smaller CBOs with expertise in reaching vulnerable populations
 - Coordination of ADAP/Ryan White Program application and eligibility determination with new systems
 - E.g., Data sharing with Medicaid, Dep't of Insurance, and others
- Provider network adequacy standards
- Payer of last resort compliance
- Infrastructure to serve an insured population

Application for Health Coverage & Help Paying Costs

 Use this application to see what coverage choices you qualify for	- Affordable private health insurance plans that offer comprehensive coverage to help you stay well - A new tax credit that can immediately help pay your premiums for health coverage - Free or low-cost insurance from Medicaid or the Children's Health Insurance Program (CHIP) You may qualify for a free or low-cost program even if you earn as much as \$94,000 a year (for a family of 4).
 Who can use this application?	- Use this application to apply for anyone in your family. - Apply even if you or your child already has health coverage. You could be eligible for lower-cost or free coverage. - If you're single, you may be able to use a short form. Visit HealthCare.gov. - Families that include immigrants can apply. You can apply for your child even if you aren't eligible for coverage. Applying won't affect your immigration status or chances of becoming a permanent resident or citizen. - If someone is helping you fill out this application, you may need to complete Appendix C.
 Apply faster online	Apply faster online at HealthCare.gov.
 What you may need to apply	- Social Security Numbers (or document numbers for any legal immigrants who need insurance) - Employer and income information for everyone in your family (for example, from paystubs, W-2 forms, or wage and tax statements) - Policy numbers for any current health insurance - Information about any job-related health insurance available to your family
 Why do we ask for this information?	We ask about income and other information to let you know what coverage you qualify for and if you can get any help paying for it. We'll keep all the information you provide private and secure, as required by law.
 What happens next?	Send your complete, signed application to the address on page 7. If you don't have all the information we ask for, sign and submit your application anyway. We'll follow-up with you within 1-2 weeks. You'll get instructions on the next steps to complete your health coverage. If you don't hear from us, visit HealthCare.gov or call 1-800-XXX-XXXX. Filling out this application doesn't mean you have to buy health coverage.
