Three Guiding Principles of the Broward County HIV Health Services Planning Council
• Linkage to Care • Retention in Care • Viral Load Suppression •

Vision: To ensure the delivery of high quality, comprehensive HIV/AIDS services to low income and uninsured Broward County residents living with HIV, by providing a targeted, coordinated, cost-effective, sustainable, and client-centered system of care.

Mission: We direct and coordinate an effective response to the HIV epidemic in Broward County to ensure high quality, comprehensive care that positively impacts the health of individuals at all stages of illness. In so doing, we: (1) Foster the substantive involvement of the HIV affected communities in assuring consumer satisfaction, identifying priority needs, and planning a responsive system of care, (2) Support local control of planning and service delivery, and build partnerships among service providers, community organizations, and federal, state, and municipal governments, (3) Monitor and report progress within the HIV continuum of care to ensure fiscal responsibility and increase community support and commitment.

4. Standard Committee Items

The PCS Staff Health Planner presented the CEC meeting evaluation results from the

second quarter to the committee. Meeting evaluations are used as a tool to provide ongoing feedback to the Planning Council and its committees as to the quality and effectiveness of meetings, and they identify strengths, deficiencies, and potential training/development needs. The CEC had ten completed surveys out of a potential total of 19, with a 100% completion rate for the surveys received. There was still concern from the Chair about the lack of participation from members. PCS staff commended CEC for having the most participation from members relative to all the HIVPC and its committees.

5. New Business

The Committee reviewed the progress made toward FY2021-2022 work plan activities. PCS Staff showed the updated work plan, which reflects completed activities through the first half of the fiscal year. To date, the Committee has achieved about 40% of their work plan with upcoming scheduled activities. PCS staff continues to actively update the work plan to reflect completed activities.

The CEC Vice-Chair proposed that the Committee partner with the World AIDS Museum (WAM) to host Steering the Ship, which is a part of WAM's community dialogue series. The event, which was originally scheduled for Tuesday, July 27, 2021, was postponed to Tuesday, October 19, 2021. This event, to be held via Zoom and Facebook Live, will be an open dialogue on lifting community voices from the HIV community. The committee agreed that this event would be an excellent way to engage and educate the community on the HIV epidemic. The Vice-Chair also announced that several Ryan White Part A Eligible Metropolitan Areas (EMAS) including Orlando, Atlanta and Newark have agreed to participate in this event alongside committee members and PCS staff.

Members discussed another potential event for the Committee to host for the HIV community. The Chair proposed a red table talk styled listening session specific for Consumers to discuss their experiences navigating the Fort Lauderdale/Broward EMA's system of care. It was recommended that we need to involve provider agencies more in the process of hosting meaningful programs within the community. The Committee strategized on how best to host and broadcast this event. The Committee agreed that this event would be beneficial to the HIVPC and the HIV Community in Broward County. At this time the committee agreed to revisit this discussion at a later date as they think of next steps.

Lastly, the Committee reviewed current HIVPC recruitment materials. Members provided insightful feedback on how best to improve on the materials currently being used. PCS agreed with many of the changes suggested by the committee and will work to redesign the materials to bring before MCDC for approval.
