Three Guiding Principles of the Broward County HIV Health Services Planning Council

• Linkage to Care • Retention in Care • Viral Load Suppression •

Vision: To ensure the delivery of high quality, comprehensive HIV/AIDS services to low income and uninsured Broward County residents living with HIV, by providing a targeted, coordinated, cost-effective, sustainable, and client-centered system of care.

Mission: We direct and coordinate an effective response to the HIV epidemic in Broward County to ensure high quality, comprehensive care that positively impacts the health of individuals at all stages of illness. In so doing, we: (1) Foster the substantive involvement of the HIV affected communities in assuring consumer satisfaction, identifying priority needs, and planning a responsive system of care, (2) Support local control of planning and service delivery, and build partnerships among service providers, community organizations, and federal, state, and municipal governments, (3) Monitor and report progress within the HIV continuum of care to ensure fiscal responsibility and increase community support and commitment.

Members also wanted to rename the event to Community Conversations rather than Listening Session to make this an engaging event for the community. HIVPC members will distribute the promotional materials during the Florida AIDS Walks on March 19, 2022, to gain a larger audience and maximize participation in the Listening Sessions. Members decided they wanted to host a hybrid, virtual and in-person event. After discussing possible hosting venues, the Vice-Chair suggested that the Ft. Lauderdale Downtown AIDS Healthcare Foundation (AHF) location would make an ideal location as the facility is at the mid-way point in Broward. Members also suggested hosting sessions in different locations to eliminate possible barriers for participants.

Members also reviewed an outline of topics and discussions for the listening sessions. Members plan to host the listening sessions for an hour and collaborate with other organizations and the Prevention Planning Council. J. Castillo suggested partnering with ViiV Healthcare Limited organization asking a representative to join the May listening session to inform the community of the new biomedical advances with PrEP and the development of the HIV vaccine. The Committee voted to approve the first two listening sessions, and the promotional flyer with the necessary edits was proposed by R. Shore, seconded by D. Gunion, and passed unanimously.

14. **Referral for Health Care and Support Services:** Directs a client to needed core medical or support services in person or through telephone, written, or other type of communication. This service may include referrals to assist eligible clients to obtain access to other public and private programs for which they may be eligible (e.g., Medicaid, Medicare Part D, State Pharmacy Assistance Programs, Pharmaceutical Manufacturer's Patient Assistance Programs, and other state or local health care and supportive services, or health insurance Marketplace plans).

Outpatient/Ambulatory Health Services or satellite facilities. Funds may not be used for off premise social/recreational activities or to pay for a client's gym membership.
